

## 兔抗 ACTRT1 多克隆抗体

中文名称：兔抗 ACTRT1 多克隆抗体

英文名称：Anti-ACTRT1 rabbit polyclonal antibody

别名：AIP1; ARIP1; ARPT1; HSD27

抗原：ACTRT1

储存：冷冻（-20℃）

宿主：Rabbit

相关类别：一抗

反应种属：Human

标记物：Unconjugate

克隆类型：rabbit polyclonal

### 技术规格

|                          |                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|--------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Background:</b>       | This gene encodes a protein related to the cytoskeletal protein beta-actin. This protein is a major component of the calyx in the perinuclear theca of mammalian sperm heads, and it therefore likely functions in spermatid formation. This gene is intronless and is similar to a related gene located on chromosome 1. A related pseudogene has also been identified approximately 75 kb downstream of this gene on chromosome X. |
| <b>Applications:</b>     | ELISA, WB                                                                                                                                                                                                                                                                                                                                                                                                                            |
| <b>Name of antibody:</b> | ACTRT1                                                                                                                                                                                                                                                                                                                                                                                                                               |

|                                    |                                |
|------------------------------------|--------------------------------|
| <b>Immunogen:</b>                  | Fusion protein of human ACTRT1 |
| <b>Full name:</b>                  | Actin-related protein T1       |
| <b>Synonyms :</b>                  | AIP1; ARIP1; ARPT1; HSD27      |
| <b>SwissProt:</b>                  | Q8TDG2                         |
| <b>ELISA Recommended dilution:</b> | 1000-2000                      |
| <b>WB Predicted band size:</b>     | 42 kDa                         |
| <b>WB Positive control:</b>        | Jurkat cells                   |
| <b>WB Recommended dilution:</b>    | 200-1000                       |
