

兔抗 PXN (Phospho-Tyr31)多克隆抗体

中文名称：兔抗 PXN (Phospho-Tyr31)多克隆抗体

英文名称：Anti-PXN (Phospho-Tyr31) rabbit polyclonal antibody

相关类别：一抗

储 存：冷冻（-20℃）避光

宿 主：Rabbit

抗 原：PXN (Phospho-Tyr31)

反应种属：Human

标 记 物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:	An antiphosphotyrosine antibody was used to identify proteins that are phosphorylated in Rous sarcoma virus-transformed chick embryo fibroblasts, and a 76-kD protein was obtained that localizes to focal adhesions at the ends of actin-containing stress fibers in nontransformed cells (Ref.1). This protein was purified from chicken gizzard smooth muscle, and was named Pxn (Paxillin) ('paxillus' means 'small stake' or 'peg' in Latin) as a protein tethered to the membrane at focal adhesions
Applications:	WB
Name of antibody:	PXN (Phospho-Tyr31)

Immunogen:	Synthetic peptide of human PXN (Phospho-Tyr31)
Full name:	paxillin (Phospho-Tyr31)
SwissProt:	P49023
WB Predicted band size:	65 kDa
WB Positive control:	HT29 cells treated with PMA
WB Recommended dilution:	500-1000
